DAVID KRUSKAMP
PROJECT SITE FOREMAN
YEARS EXPERIENCE: 31

INTRODUCTION

I have been in construction for 31 years, starting as a laborer and working my way up to a foreman. I have worked on all types of civil/infrastructure work including, but not limited to, the construction of Interstate Highways, Mass Grading, Water Treatment Plants, Power Plants, Chemical Plants and Landfills. I have worked on over 20 landfill projects for such clients as The Dow Chemical Company and Waste Management. I have been responsible for layout and grading on all of the landfill projects, most of them as a supervisor. I began with slope laser set up then progressed to EDM layout, then evolved to GPS layout, set-up and grading. I currently have over 10 years' experience of GPS grading, most of the time with the responsibility of working multiple projects at one time. Self-taught and proficient with AutoCAD, GPS grade control set up, TIN generation, site control and layout, survey and quantity verification.

EXPERIENCE

Foreman/Supervisor - Fisher Contracting Company, Inc. August 1985 to Current

- Responsible for multiple Job layout and control
- Up to date OSHA training, HAZWOPER and Confined Space Training
- Fluent in Blueprint Reading
