DIRK KRUSKAMP
SITE FOREMAN
YEARS EXPERIENCE: 15

INTRODUCTION

I have been in the construction industry most of my life. I Started out as a Laborer and have moved my way up into a management position. I started working with Fisher Contracting in 2006. My first experience was working on interstate High Ways (laying out with GPS, grading with slope laser, and general laborer). In 2009 I took the role as a safety representative for large building projects like Dow Battery and Solar shingle. While partaking in this role I also became a QC/QA inspector for Fisher Contracting. Creating Documents and insuring our work had the quality expected by us and our clients. In 2015 I was promoted to Site Foreman.

EXPERIENCE

Site Foreman - *Fisher Contracting Company*

2006 to Present

- Currently Site Foreman for Heavy Civil Projects with an expertise in mass dirt excavation and Underground Utilities.
