**JOSH MCCLAREN**  
**PROJECT MANAGER**  
**YEARS EXPERIENCE: 3**

**INTRODUCTION**

I graduated from Michigan Tech University with a Bachelor of Science in Construction Management in 2016. While I may have recently earned my degree I had the opportunity to participate in multiple internships where I gained experience with commercial site design. Prior to my internships, I worked as a laborer and performed maintenance on a variety of construction equipment. I also have experience with operating equipment such as on-sited dump trucks, excavators, backhoes, and bulldozers. Since earning my degree I have worked on several different projects ranging from a Field Engineer on fast paced outage projects, a Quality Control Manager for a large Distribution Center, to a Project Manager for a Powerhouse Boiler Replacement. My Technical skills consist of but are not limited to the following: OSHA 30, ACI Concrete Field Testing – Grade I, Excavation Safety, Construction and Industrial Storm water Operator, AutoCAD, and Carlson Suite.

**EDUCATION/CERTIFICATIONS**
